

Nicu-Manuel Chiriac

Friendly and creative person. As a student I'm eager to learn and grow in as many areas as possible. Passionate about computer engineering, web development/design and technology in general.

EDUCATION

Faculty of Automation and Computer Science,
University POLITEHNICA of Bucharest
Engineering of Internet Systems

October 2022 - July 2024

Faculty of Industrial Engineering and Robotics,
University POLITEHNICA of Bucharest
Applied Informatics in Industrial Engineering

September 2018 - July 2022

Unirea National College, Focșani
Mathematics and Informatics

September 2014 - June 2018

RELEVANT COURSES

●Control and command of mobile systems, ●Basics of data acquisition,
●Numerical Control Machine Tool Programming, ●WEB interfaces and
services, ●Complete Web Developer Udemey Course, ●Virtual Reality
Systems

EXPERIENCE

Work and Travel USA, Portsmouth, New Hampshire

June 2019 - September 2019

I worked as a full-time employee, learning things such as teamwork, coordination, punctuality.

Complet Project SRL., Internship, Bucharest

June 2021 - September 2021

A full-time summer internship. My job was to assist in product designing, CAD/CAM processing, execution drawings, bill of materials etc.

PROJECTS

Bachelor's degree administration platform : Complex Web-App made for my Faculty department in order to keep track of students, their bachelor's degree final projects and files, their coordinating teachers, status etc. It also has different types of permissions for Admin, teachers, students. Client-Server architecture App made with PERN stack(PostgreSQL, Express, Node, React).

Restaurant Web-App : A presentational Website for an existing restaurant. The app provides to customers the possibility to access the menu, location, contact details, social media news etc. This project uses React, SASS. It has a fully responsive design(using both Flexbox and Grid).

Face recognition website : a Front and Back-End application that detects faces via img URLs using an API from Clarify.

TECHNICAL SKILLS

Programming Languages

Good understanding in general data structures, OOP fundamentals and databases;

Technologies

HTML, CSS, SASS, JavaScript, React, Node, Express, PostgreSQL, AdobeXD, Figma, Bootstrap, MS Office

SOFT SKILLS

Adaptability, very good communication, problem solving and analytical thinking, writing skills, research, desire to learn.

LANGUAGES

Romanian ●●●●●

English ●●●●●

Italian ●●●●●

INTERESTS

Sports, learning about technology, reading scientific literature, listening to music, TV Shows.
